Mozhdeh Barzi

UX Designer | Specialty in Information Architecture
Tokyo

Summary

My journey to UX design has not been the most straightforward, but it has been fulfilling.

Being an empathetic and active listener helped me to find a comprehensive yet agile approach to solve real life challenges/problems, which led me to UX design field.

+5 years experience as a UX generalist focusing on human-centered design process to produce a user-focused MVP.

Expert-level proficiency with major designing tools such as Figma, Adobe XD, Sketch, Adobe Photoshop and illustrator.

Founding member of the ShootShot mobile app which was designed and developed based on a patented algorithm to eliminate friendliness bias in communications.
